The Nebraska Veterans Coalition Mission

WHAT WE DO AND WHAT OUR GOALS ARE

The Nebraska Veteran's Coalition is a non-partisan or bi-partisan group. It was formed to bring awareness to veterans about what is going on in the Nebraska Unicameral. To inform veterans of their elected officials and the legislation status about Veteran's benefits going through the Nebraska Unicameral.

See our mission statement on our website

Encourage posting of veterans' events on our Facebook page (Nebraska Veterans Coalition) "Friend us," View our Website- www.NebraskaVeterans.org, and follow Twitter @VetsCoalitionNE We do not solicit, or accept funding/donations for our efforts.

Welcome, everyone, I hope you enjoy this newsletter with a copy at the top of our Facebook page.

You can request to have the newsletter sent directly to you by email, and all that is needed is to request to join at the top of the newsletter. The only information needed is an email address (Names or personal information is not requested nor required) For those that feel a friend would like to see this information, just forward it.

Thank You, Dean Kenkel

The following is an excerpt from Ron Dupel's post on our Facebook page to welcome new friends to our Facebook group page.

Hello Everyone, Welcome to the Nebraska Veterans Coalition. I have been remiss in making sure to welcome everyone who has friended us.

Thank you to everyone who has joined us recently, and welcome to you.

We are busy meeting with Senators in the Nebraska Legislature to discuss our goals and why they should support Veterans and enact legislation for Veterans.

We are also heavily involved in a large group effort to improve mental health programs, raise awareness of suicide, and implement more consistent and successful approaches to treating PTSD, TBI, and raising awareness of suicide with efforts to decrease instances of suicide.

We have a website with considerable information on it. John Stewart does awesome with the site for us. www.NebraskaVeterans.org

Many people do not engage with Facebook, so if you know friends or someone who would like to receive these emails, please forward this newsletter to them. We feel the newsletters are filled with valuable information for Veterans.

Again, Welcome to you who have friended us on Facebook and thank you

Plenty of postings are in the column to our right with much information about various topics.

Please give a shout-out to new friends.

Standing Committees

https://nebraskalegislature.gov/committees/standing-committees.php

The Legislature has 14 standing committees that are organized around various public policy areas in order to facilitate the processing of legislation. These committees hold public hearings on the legislation. Typically, hearings are held in the afternoon of legislative days, and they begin in mid-January and last through early March.

Senator Tom Brewer 43rd District 8-25-2023

Article III, section 27 of Nebraska's Constitution says that new legislation ordinarily becomes effective "three calendar months after the adjournment of the session at which it passed." This year, that date falls on September 2nd. Among many other new laws that will "go live" at that time is LB 77, my constitutional carry bill.

As we debated this bill, I said at every opportunity that I believe that Nebraskans are ready for the responsibilities that come with their constitutional right to keep and bear arms. One of those responsibilities is knowing what the law is. Since the law is now changing, I wanted to briefly brief folks looking to understand the changes.

With respect to Constitutional Carry, what we did was eliminate the crime of carrying a concealed weapon for law-abiding adults. That means Nebraskans will no longer have to ask the government for permission to carry a concealed handgun. However, the permit program will continue to operate, and I plan to keep renewing my permit so I can use it as a handgun purchase permit and for reciprocity when I travel to other states.

There are a few critical things that everyone needs to understand about the changes in LB 77: the new law does not change where you can carry a concealed handgun, who can do the carrying, or who can buy a gun.

When carrying, you still have to steer clear of corrections and law enforcement facilities, courthouses, polling places, government meetings, schools, professional sporting events, places of worship (unless on the security team), banks (same exception), hospitals, political rallies, and businesses that make more than half of their income from selling alcohol. Property owners and businesses can still post their properties to forbid carry inside. You still cannot detect any alcohol or illegal drugs in your system. You still have to be twenty-one years old or older. You still have to be someone who can legally possess a firearm and ammunition under federal law. Finally, you still have to immediately notify a police officer or other emergency responder of your concealed handgun any time you are officially contacted by them while carrying.

Another important thing to note is that the changes to the concealed weapons law affect not only the carry of handguns but also other concealable weapons. For example, that filet knife fully "concealed" in your tackle box, with a blade that is sure to be longer than 3.5 inches, could be charged as an illegal concealed weapon under the law, pre-LB 77. Same thing with the camp knife in your backpack while you are out on a hunt. As of September 2nd, that will no longer be a problem. However, people who choose to commit dangerous crimes — including some misdemeanors — while carrying a concealed weapon may now be charged with an additional crime because of their choice to bring a weapon along for the offense.

The other aspect of LB 77, state preemption, will void a number of local ordinances in cities across Nebraska. Omaha's handgun registry will be out of business, and Omaha's open carry ban will be nixed. Lincoln's list of extra "prohibited person" categories is going away. Although Omaha and Lincoln are the most impacted, even cities like Gordon are in a position to have to delete some language that will no longer have the force of law.

Nebraska's laws are about to resemble our Nebraska values more closely. Let's show the world what

we can do with an extra measure of liberty. Please contact my office with any comments, questions, or concerns. Email me at tbrewer@leg.ne.gov, mail a letter to Sen. Tom Brewer, Room #1423, P.O. Box 94604, Lincoln, NE

HEALTH CARE

When Someone Shares a Trauma

Sharing their experiences and feelings with you – or disclosing their trauma– can be an important part of their healing process. At the same time, it can also leave you with a multitude of emotions- anger, worry, relief, an appreciation for being trusted, or some combination of these and other complex feelings. You do not need to "fix" the problems or "take away" their pain. Most people are simply looking for validation, support and connection. Read on for more tips, tools and resources for navigating the healing process.

Abstract

Background and aims: A paucity of studies has examined the association between gambling and pain interference. We examined differences in the associations of gambling problem severity and psychiatric disorders among a nationally representative sample of adults with varying levels of pain interference.

Auxiliary aids and services are available upon request to individuals with disabilities.

As we all know, Nebraska has abundant and beautiful natural resources that all citizens use. Game and Parks play a vital role in protecting, managing, and allowing access to these resources for fishing, hunting, camping, hiking, and other outdoor activities. Veterans are large users and spend significant sums of money using these resources to escape their trauma and heal.

It has come to the attention of the Nebraska Veterans Coalition that the proposed fish kill of Lake Ogallala, which has been on indefinite hold, is now suddenly being executed in the next few weeks. Lake Ogallala is a unique, cold, clear water lake in the state of Nebraska, which allows for sight fishing for many fish species and Carp.

Each year, there are many people who go to Lake Ogallala to fly and bowfish for Carp. This is the only lake where people with disabilities can fish for these fish and drop a fly on their nose, so to speak and catch a fish that is one gene removed from the Bonefish, which people spend so much money to fish for in Florida. There is an annual tournament, The Charles Baswell Great Plains Bonefish Invitational" which is hosted by volunteers every year starting in 2016, except for the COVID years, where a veteran, a volunteer and a guide can fly fish for carp. This opportunity is about to be lost, and the tournament will either end or move to a possibly different state. There are no alternatives to this lake for this event and access.

I received an email, that if the kill happens, the tournament will end or be moved to another state. Montana is an alternative but requires boat access on the Missouri; it is far more expensive, and not handicapped or disabled-friendly.

I contacted the Ogallala Chamber of Commerce last week. They were aware of the fish kill but did not know the following:

- 1) People use the lake to fish for carp with Bows and Fly Fish
- 2) It is a unique fishery because it can be sight-fished for Carp and is accessible to people with disabilities.
- 3) There is an annual Veteran Fishing Invitational Tournament every August, which targets Carp, but any fish in the lake and below the dam is fair game. This tournament takes care of all the costs of the veteran, volunteer, and Guide. This year, non-veteran fly-fishing guides donated their time, skills, and flies. Some came from as far away as Wisconsin, Des Moines, Denver, and Wichita.
- 4) Carp can be eaten, but the Tournament is a catch and release, so future people will have the thrill of catching an elusive, smart, predatory fish that is one tough fighter.

I have included some pictures from this year's tournament last week and testimonials from the Veteran and non-veteran guides who fished with the veterans. The smiles tell it all. Can one put a price tag on a veteran's smile and forget about their past for a brief time in nature, which is so healing?

The Nebraska Veterans Coalitions is calling on all its members to immediately reach out to their state Senators, Veteran Service Organizations and the Game and Parks to stop this fish kill permanently as they have not considered all of the needs of the constituents who use Lake Ogallala which includes those with disabilities and veterans.

Governor Rickets and Pillen have all stated they want to make Nebraska a veteran-friendly state.

William A. Klumper (Veteran) Nebraska Veterans Coalition Administrator. Testimonials:

Larry Dostal, non-veteran Guide and Expert on Lake Ogallala Fly Fishing for 30 years.

My name is Larry Dostal, and I'm a former (3 term) president of the Cornhusker Fly Fishers 501(c)3 non-profit out of Eastern Nebraska with the sole charter of promoting fly fishing opportunities to the angling community. As a lifelong Nebraska resident and avid angler, I have visited this area nearly every year for 3 decades now.

Lake Ogallala offers the best, publicly accessible, sight fishing for carp in the entire state of Nebraska. The shallow flats on the east end are accessible to the seasoned angler and beginner alike, and they offer a chance to sightfish true trophy-sized carp. For the last few years, I've been heavily involved in organizing an event for disabled veterans with Project Healing Waters, based around sight fishing for common carp at Lake Ogallala. We settled on Lake Ogallala due to the unique opportunities inherent in the lake (numerous large fish, crystal clear water, easily accessible fishing areas) as well as the modern amenities and logistical support of the services of the City of Ogallala. From 2018 to 2023, our Carp Centric event, the Great Plains Bonefish Invitational, has brought tens of thousands of dollars, of mostly out-of-state money to the state of Nebraska and the Ogallala area (hotels, lodging, food, fuel, park permits, fishing licenses, fishing tackle, souvenirs). If the lake is poisoned with rotenone to remove the "undesirable" fish like carp, we will be forced to take our event elsewhere, likely in another state. At this time, we are asking for a halt to the planned renovation of the lake, if only to evaluate the potential economic impacts.

I have attached a few photographs/slides that highlight the opportunities this truly special fishery have to offer as a carp angling destination. Please share them with any interested stakeholder. The use and promotion of Lake Ogallala as a world-class carp fishery (or Bow-Fishery) should be considered for the future economic growth of the area.

If you have any questions about carp angling, the events we host at Lake Ogallala, my angling experiences at Lake Ogallala / McConaughy, the development of promotional messaging for carp angling, or anything else, please feel free to contact me!!!

Luke Annear—volunteer guide.

My veteran angler was insistent on tipping me this past weekend, and while I insisted that this is a volunteer event and that it's not expected at all, he still insisted. In the moment, I realized it was in no small part because of how important this weekend was for him.

It really sunk in over the course of that evening just how important this event is for many of the veterans who come to participate. We never know what others are going through, and this weekend really helped me see the huge importance of this event.

This is all along with a decision that I had made earlier this season to allocate a certain percentage of what I make as a guide to conservation and other causes. It only made sense to me to add this tip amount to a donation to PHWFF.

I'm wondering if there is a way for me to donate directly to helping make sure that the Charles Baswell event can continue to happen? Or to help fund reimbursements for veterans to make the trip? Is this best done as a donation to a certain chapter? Please let me know.

All the best,

--

Mike Medina—Denver and Veteran

I've been reading all the info and research. Carp should be considered a game fish. I had a talk with some of our veterans at the CBGPBI in 2023. I can't mention names, but some real emotional stories were told. I've been in communication with one veteran from the 2022 CBGPBI. He had gone through a really difficult and extremely depressing time in their life. A time that some people don't come back from. Trying to keep positive through texting, I had asked if they were going to attend CBGPBI again this year in 2023. They had asked if I was attending, I said yes and would like to see them again. Fly fishing for carp is not easy. To see our veterans, focus and concentrate on this game fish, at that moment nothing else matters, the memories, the pain, the dark. It's truly a positive time and has everlasting memories. For one of our veterans, carp fishing at Ogallala has made a huge impact on their life. To whomever this message reaches, when you see our veterans tear up and get choked up while holding this game fish. The accomplishment they just went through, the battle, the fight, the reward. It changes how a person views this fish called CARP. My name is Michael Medina. I'm a mentor for Project Healing Water Fly Fishing.

At the graveside, the hat is held over your heart during the ENTIRE service unless you are part of the Color/Honor detail or Commander of such detail

I see this time and time again. The cap is to be removed when entering the place of worship and held over your heart.

One other tidbit of information regarding Cap Etiquette and funerals:

1. At the graveside, the hat is held over your heart during the ENTIRE service unless you are part of the Color/Honor detail or Commander of such detail. Non-legionnaires looking at some Legionnaires with hats on and others with hats off would easily get the impression that we don't appear to know the rules. We all need to comply with these standard rules to appear uniform at these functions. Dave Salak

Uniform Cap Etiquette

The cap's left side (emblem side) is reserved only for the Legion emblem, city, county, district, or state lettering.

If desired, the following items must be placed on the right side of the cap:

*Additional lettering, restricted to either the name of a Post or to an officer title, such as Past Commander

*Cap insignias or badges for past or present officers

Consecutive membership insignia, membership stars, and/or authorized Legion or military service decorations

Names or nicknames of individual members

cannot be used on caps.

The Legion uniform cap should be worn by its members only when in attendance at official Legion meetings or ceremonies or as official guests at patriotic or other civil functions or by individuals when officially representing The American Legion on public occasions.

A member is considered to be in uniform if wearing an official Legion uniform cap. Therefore, it is not proper to wear the cap while eating a meal at an official Legion or civic luncheon or dinner.

The cap should be worn in a place of worship only by the Guard of Honor, Color Guard, and Commander of same while in marching order or standing guard. When returned to and seated in pews, the cap should be removed.

Legion posts marching in formation into a place of worship should uncover at the door, hold the cap with the right hand over the heart until the arrival in the pews and be commanded to take seats, remaining uncovered during the entire service. At the close of the service, upon command, the post shall arise; the members holding the cap with the right hand over the heart will march out of the place of worship and recover after marching through the door.

Legion members not in formation will uncover upon entering the place of worship and remain uncovered during the entire service and will recover after leaving the place of worship.

When at a funeral, the cap should be held over the heart as one approaches the casket and is not at any time worn in a place of worship (except by the Guard of Honor, Color Guard, or Commander of same while in marching or under or standing guard.) The cap should be held in the right hand over the heart at the graveside during the entire service. In cold and inclement weather, the cap should not be worn.

In Legion meetings, the cap should be worn except during moments of the Pledge of Allegiance, prayer, and when standing in silent reverence in memory of departed comrades, when the cap should be held with the right hand over the heart.

Female members of the Legion should wear their caps in the manner prescribed for female personnel of the armed services.

Wetland water conditions poor over much of Rainwater Basin

Wetland water conditions throughout most of the Rainwater Basin currently is poor, with many wetlands being dry due to the drought and hot weather, according to the Nebraska Game and Parks Commission.

Hunters should be prepared to scout ahead of teal season. Some wetland pumping is planned before the teal opener.

The conditions recently were observed by biologists. To view the Aug. 22 report on wetland conditions and pumping plans, go to OutdoorNebraska.gov/hunt/game/waterfowl, where updates will be posted regularly throughout the duck seasons.

Waterfowl hunting in Nebraska begins with early teal season Sept. 2-10 in the High Plains Zone and Sept. 2-17 in the Low Plains Zone. See an interactive zone map at OutdoorNebraska.gov/guides-maps/maps

In addition to providing places to hunt waterfowl, wetlands are pumped when needed to provide

habitat for migrating waterfowl and other water birds, and to provide areas for people to observe wildlife.

Visit <u>OutdoorNebraska.gov</u> for more information on waterfowl hunting or to purchase permits and stamps and register for the Harvest Information Program.

Commissioners approve fee increase for state park entry permits

The Nebraska Game and Parks Commission approved fee increases for its state park entry permits at its meeting on Aug. 4 in Valentine.

The fee for the annual permit for Nebraska-licensed vehicles will increase from \$30 to \$35 and a temporary (daily) permit from \$6 to \$7 beginning Jan. 1, 2024. That approval activated an increase in permit fees for vehicles licensed outside of Nebraska. Those annual permits increased from \$60 to \$70, with the daily permit increasing from \$12 to \$14.

The duplicate permit will go from \$15 to \$17.50 for Nebraska-licensed vehicles and \$30 to \$35 for vehicles licensed outside of Nebraska.

2023 Lincoln Veterans Parade

Nebraska State Capitol 2023 Lincoln Veterans Parade VETERANS IN BUSINESS K street from S 21st to S 14th Street Sunday, Nov. 12th at 2 PM

On Sunday afternoon, everyone is invited to line K Street to see so many great sponsors, businesses, organizations, vehicles, and people in salute to our American heroes. This year we are giving special recognition to our military veterans in the workforce as business leaders, entrepreneurs, or employees. Our heroes continue to move forward after service.

The parade will start at 2 PM on 21st and K Street, moving westbound to S 14th. The parade line will stop at the Capital Building for the opening ceremony. We have 2 stations along the route of radio hosts providing emcee support. The parade will have a Live TV and Streaming Broadcast of the entire event. Expecting to last 60 to 90 minutes.

Getting involved and helping others is not just in the military but is what Nebraskans do. Send a message or visit the website to find more information. From joining the Planning Committee, helping setup on parade day, or just posting a sign in the yard.

2023 VETERANS IN BUSINESS

This year's parade will be honoring veterans in business. 2021 saw one of the highest numbers of new business starts in the US – more than 5.4M. 10.7% of new business owners in 2021 were veterans. Veterans are playing a bigger role in driving the economy forward, translating military training to business success. Veterans are significantly more likely to start a business in Goods-Producing/Logistic sectors (construction, manufacturing, utilities, transportation, and warehousing) than all new business owners.
